

# DR. SOL WEISS, THE ART OF DENTISTRY

PASSION, TALENT & DEDICATION

**Located in the heart of Yorkville**, Dr. Weiss has created an inspiring, relaxed spa-like atmosphere with soothing water-fall, new age music, aroma therapy, hot towel treatments and shaded windows. This relaxing environment helps you feel welcome and at ease. His extraordinary vision of cosmetic dentistry combined with an experienced team and staff provide you with the pinnacle of professionalism in dental care. At The Art of Dentistry your journey is as important as your destination: A final, personal masterpiece.

**From veneers, crowns, bridges and implants to Invisalign** (virtually invisible braces) and Zoom! Whitening, we provide care for all your dental needs in one very special location. Some dentists opt to perform only their favourite procedure, Dr. Weiss instead listens to the needs and desires of each patient and makes them a part of the final decision process. He then carefully explains the method used based on the patient's desires and how fast they want results.

Watch Dr. Weiss speak about cosmetic dentistry at [elevatemagazine.com](http://elevatemagazine.com)

**"My goal is to create the best possible result** in the most comfortable atmosphere taking into consideration patient's expectations," Dr. Weiss explains. He believes this interaction with his patients is what makes Dr. Weiss's clinic exceptional and that listening to their needs and wants results in an improved self image. "My goal is to create the best work anybody can possibly do," adds Dr. Weiss.

**The Art Of Dentistry has provided patients** with exceptional dental care for more than 19 years. Dr. Weiss's reputation has grown from strength to strength and, not surprisingly, his special expertise is frequently sought by major consumer news outlets and magazines.

**He has created beautiful, natural smiles** for many celebrities and is the official dentist to the Miss Universe Canada Pageant. Dr. Weiss has also appeared on ET Canada and on Canada's Next Top Model. He appeared on Cityline with Marilyn Denis as a regular guest on the show for eight years. Dr. Weiss provides expertise to prestigious modeling agencies like Elmer Olsen Models.

**Dr. Weiss is one of the founding members** and former president of the Toronto Academy of Cosmetic Dentistry.

**The area in dentistry** Dr. Weiss is especially excited about is full mouth reconstruction and implants. While typical reconstruction can take anywhere from three to twelve months, Dr. Weiss is using a newly developed technique that gives patients implants in just one day. This advance is known as "Teeth in a Day". Implants are the ideal method of replacing missing teeth and enhancing a patient's smile.

**Dr. Weiss has welcomed Dr. Ernest Cholakis** his friend and respected colleague to his practice. Dr. Cholakis is devoted to implant and fixed prosthetic dentistry. A dentist with over 25 years of experience, he has placed thousands of dental implants.

**Additional benefits of dental implants** include improved

jaw/joint problems or bite issues, increased chewing efficiency, speech and digestion. Implants support facial tissue, stabilize a fixed bridge or removable denture and have no affect on adjacent teeth. Best of all they last a lifetime!

**Dr. Tarra Elliott has been practicing** at The Art Of Dentistry for over three years providing patients with family/general dentistry including orthodontics. She has a seat on the council of the North York Region Dental Society and is an active member in many associations around Toronto including the Academy of Cosmetic Dentistry and International Association of Orthodontics.

**Dr. Weiss, Dr. Elliott and Dr. Cholakis** understand the value of a healthy smile and provide patients with the latest technologies and techniques in all aspects of cosmetic dentistry.

My goal is to create your own personal masterpiece.

DR. SOL WEISS  
DMD, THE ART OF DENTISTRY, TORONTO
